TRAINING AND PLACEMENT DEPARTMENT

**Two-Week Internship Program for B. Tech I Year Students at
St. Martin's Engineering College (SMEC)**

To align with industry requirements, **St. Martin's Engineering College** is conducting an **internship** program on **Web Technology** for **B. Tech I Year students**. This program is designed to strengthen their foundation in website design, offering a blend of theoretical knowledge and hands-on experience with real-world applications. Through practical exposure, students will gain valuable insights into industry practices, equipping them with the skills needed to excel in their careers and stay competitive in the evolving tech landscape.

The Two-Week Internship sessions are conducted Department-wise, as follows:

Forenoon: CSE(AI&ML), CSE and EEE

Afternoon: CSE, ECE

Topics Covered:

1. VS code Implementation, List tags, Table elements and attributes
2. Hypertext elements, tags like headings, h1-h6, paragraph, bold tag, static and dynamic pages.
3. Tags and attributes, <a> tag, tag and <link> tag.
4. Image tags and attributes, linking image to webpage, color code for html content and styles.

Day: Tuesday

Date: 25-02-2025

Venue: Subhas Chandra Bose Block

In today's live session, trainers provided valuable insights into key web development concepts. The session began with an introduction to VS Code implementation, followed by an explanation of list tags, table elements, and their attributes. Trainers then covered hypertext elements, including headings (h1-h6), paragraphs, and bold tags, while also highlighting the differences between static and dynamic pages. Moving forward, they discussed various tags and attributes, focusing on essential elements like the <a> tag, tag, and <link> tag, explaining their importance in web development. The session concluded with an overview of image tags and attributes, linking images to webpages, and understanding

color codes for HTML content and styles, ensuring students gained practical knowledge for effective website design.

Day 2 successfully wrapped up with valuable insights from trainers, enthusiastic participation from students, and strong support and monitoring by faculty.
