TRAINING AND PLACEMENT DEPARTMENT

Two-Week Internship Program for B. Tech I Year Students at
St. Martin's Engineering College (SMEC)

To align with industry requirements, **St. Martin's Engineering College** is conducting an **internship** program on **Web Technology** for **B. Tech I Year students**. This program is designed to strengthen their foundation in website design, offering a blend of theoretical knowledge and hands-on experience with real-world applications. Through practical exposure, students will gain valuable insights into industry practices, equipping them with the skills needed to excel in their careers and stay competitive in the evolving tech landscape.

The Two-Week Internship sessions are conducted Department-wise, as follows:

Forenoon: CSE(AI&ML), CSE and EEE

Afternoon: CSE, ECE

Topics Covered:

1. <dir>, <span>, <form> and <Input> tags and style attributes
2. Colors, HTML static tags, declarations, styles in text and background properties.
3. Cell padding, spacing, row & column span, form tags and its attributes and simple login forms.
4. HTML elements, CSS stylings, practice development in webpage.

**Day:** Friday

Date: 28-02-2025

Venue: Subhas Chandra Bose Block

In today's live session, trainers covered important web development concepts. The session began with an explanation of <dir>, <span>, <form>, and <input> tags, along with the use of style attributes for formatting elements. Trainers then introduced HTML static tags, declarations, and different color properties, focusing on how to apply styles to text and background elements effectively. Moving forward, the session covered table-related properties, including cell padding, cell spacing, row and column spanning, and their role in structuring data. Trainers also provided insights into form tags and their attributes, demonstrating the creation of simple login forms. Finally, the session concluded with a hands-
on practice session, where students applied HTML elements and CSS styling to develop a basic webpage, reinforcing their learning through practical implementation.

Day 4 concluded successfully with insightful guidance from trainers, active engagement from students, and effective supervision by faculty, ensuring a productive learning experience
